PRO Software & SwipeClock Integrations

## Single Sign On Capability and Data Sync — Saving you time
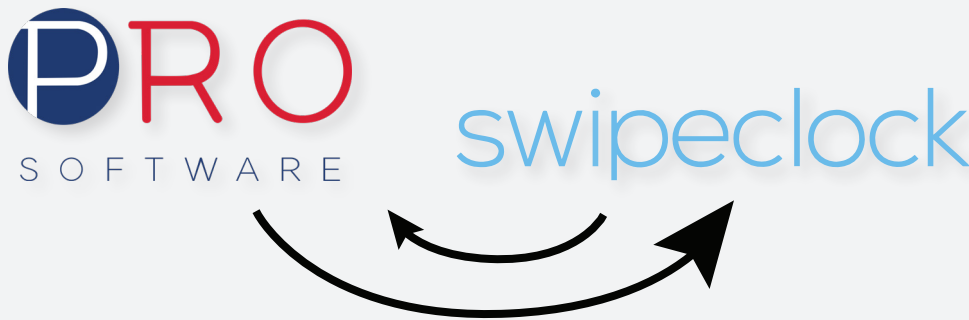

Once the integration has been set up, PRO Employee data (i.e., Employee Name, Job Title, etc.) syncs, automatically flowing into SwipeClock. Rest assured that employee data within PRO is up-to-date and easily accessible.

With **Single Sign-On**, after initial binding, one click from within PRO will take you straight to SwipeClock. Further increase efficiency by clocking in directly on the PRO dashboard.

Want to hear more about these integrations, or interested in SwipeClock? Contact Julie Clark at jclark@prosoftware.com!

Integrated Payroll Submission to PRO— No file export required
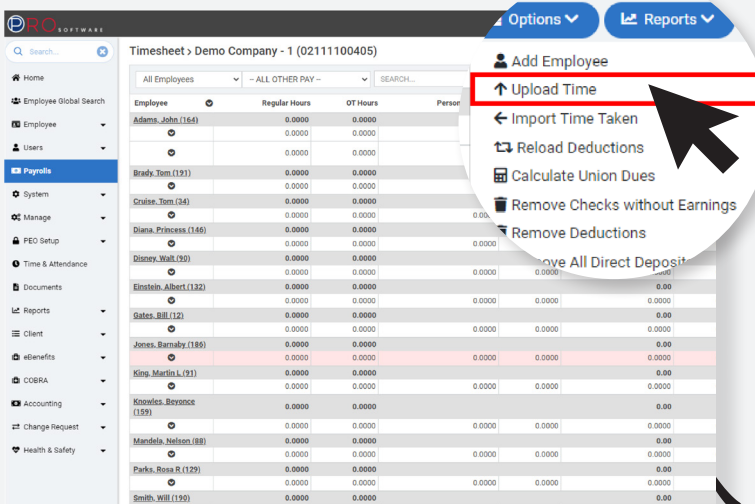

Timecard Management and Approval Completed in SwipeClock—within PRO, navigate to Payroll > Options > Upload Time

> Import Time into PRO.
